PROFILE

Junior Network Engineer with a strong interest in IT infrastructure, system administration, and networking. Solid foundation in network configuration, troubleshooting, Windows Server administration, virtualization, and basic network security.

EDUCATION

Bachelor of Science in Communications and Computer Engineering, Mansoura University September 2021 - July 2026
Grade: 3.27 / 4.00 (Very Good)

INTERNSHIPS

Petrobel (Belayim Petroleum Company), Abu Rudeis, South Sinai	September 2025
GUPCO (Gulf of Suez Petroleum), Ras Shoker	July 2025
Information Technology Institute (ITI), Online	May 2025 - September 2025
National Telecommunication Institute (NTI), Mansoura	March 2025 - April 2025
Digital Egypt Pioneers Program (MCIT), Mansoura	April 2024 - September 2024

TECHNICAL SKILLS

Networking Fundamentals: TCP/IP, OSI Model, Subnetting, IPv4/IPv6
Routing Protocols: OSPF, EIGRP, RIP
Switching: VLAN, STP, EtherChannel
Network Services: DHCP, DNS, NAT, Active Directory, Group Policy
Security: ACLS, VPN (IPsec), FortiGate Firewall
Virtualization: VMware vSphere
Operating Systems: Windows 10, Windows 11, Windows Server 2019, Kali Linux
Tools: Cisco Packet Tracer, GNS3, EVE-ng, Wireshark

PROJECTS

Enterprise Network Infrastructure
Designed a 4-department network using VLANs, Inter-VLAN routing, and OSPF.
Configured DHCP, DNS, and NAT for internet access.
Implemented HSRP and EtherChannel to improve network availability.

Secure and Resilient Enterprise Network
Designed and implemented a secure multi-site enterprise network using GNS3 and FortiGate.
Validated security controls through connectivity and failover testing.

LANGUAGES

English - Conversational
Arabic - Native

CERTIFICATES

CCNA: Enterprise Networking, Security, and Automation from Cisco Networking Academy	May 2025
CCNA: Switching, Routing, and Wireless Essentials from Cisco Networking Academy	March 2025
CCNA: Introduction to Networks from Cisco Networking Academy	March 2025
